# RESOURCE CENTER'S 2019 ANNUAL REPORT

In 2019, people across the world celebrated the 50th anniversary of the Stonewall Riots, a pivotal event in the LGBTQ civil rights movement. Led by Black, transgender women, patrons of the Stonewall Inn, a tavern in New York City's Greenwich Village, rebelled against police harassment on a steamy summer night in 1969, and the outcry of the LGBTQ community resounded across the world. Over those 50 years, the community organized and fought for advances, including the right to serve in the military and the right to marry.

Resource Center, founded in response to discrimination against the LGBTQ community, carried on its legacy of advancing civil rights through education and advocacy while also expanding a wide range of programs and services for the community. In 2019, the agency added LGBTQ Health to provide primary medical care and ensure physical wellbeing, while also growing gender-affirming healthcare and mental health counseling.

We also increased services through the PrEP Care Program at the historic Nelson-Tebedo location and in programs for youth (Youth First), seniors (THRIVE), and women (Women with Pride). The Center continued its longtime leadership in HIV prevention not only by offering PrEP, but also through its robust FUSE, UBE and Grupo Orgullo Hispano community engagement programs serving young men ages 18-35. Still, from actions in Washington, D.C. and Austin to the violent epidemic against members of the transgender community, 2019 showed our work is far from complete.
